Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

¹ A "+" following a place name indicates that the place is also a false MCD; the false MCD name is not shown.

² In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a "99" suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.

³ A "+" following a block number indicates that the block number is repeated elsewhere in the block.

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol only and the label for the boundary. These boundaries:

- 1 A "1" following a place name indicates that the place is also a false MCD; the false MCD name is not used.
- 2 In 1990, the crews of vessels populated at sea was allocated to census tracts with a "99" prefix. An anchor symbol appeared on the 1990 maps locating a crew's vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the anchor.
- 3 A "3" following a block number indicates that the block number is repeated elsewhere in the map.

The diagram illustrates various types of boundaries and features in a landscape, categorized into three main sections: Highway, Secondary Road, and Jeo Tra/Workway/Ferry.

- Highway:**
 - Pipe/Power Line:** Represented by a solid line with small circles (pipes) or squares (power lines) along it.
 - Stream/Shoreline:** Represented by a wavy line.
- Secondary Road:**
 - Ridge/Physical Feature:** Represented by a dashed line.
 - Intermittent Stream:** Represented by a dashed wavy line.
- Jeo Tra/Workway/Ferry:**
 - Property/Tenure Line:** Represented by a solid line with small circles.
 - River:** Represented by a solid wavy line.
 - Nonvisible Boundary:** Represented by a dotted line.
 - Glacier:** Represented by a solid wavy line with a shaded area.

Below the main categories, there are three additional elements:

- Modality:** Represented by a blue square with a grid of dots.
- Inset:** Represented by a grey rectangle with a grid of dots.
- Out Area:** Represented by a grey rectangle.

Where international, state, and/or county boundaries coincide, the map shows the boundary symbol for only the highest-ranking of these boundaries.

- ¹ A '+' following a place name indicates that the place is also a false MCD; the false MCD name is not shown.
- ² In 1990, the crews-of-vessels population of ships at sea was allocated to census tracts with a '.99' suffix. An anchor symbol appeared on the 1990 maps locating a crews-of-vessel tract. These maps show a very small area symbolized as a census tract with the census tract number shown near the area.
- ³ A '*' following a block number indicates that the block number is repeated elsewhere in the block.
